# Post Graduate Govt. College, Sector- 11, Chandigarh

---

**Post Graduate Government College, Sector 11, Chandigarh  
is as old and as young as the City Beautiful.**

**Its growth and expansion have kept pace with the growth and expansion of the city.**

**The college was established on May 26, 1953,**

**It has always been our earnest endeavour to direct the collective efforts  
towards the inculcation of intellectual brilliance, moral uprightness,  
and ethical awareness, so as to shape young boys and girls into responsive  
and responsible members of society.**

**'Higher and Still Higher' is the motto of the college.**

# Concept Note for 2 Day International Webinar

**Redrawing the Domestic Paradigm :  
Family Bonding, Gender concerns & Health Issues amidst COVID-19**

**Greeting from The City Beautiful- Chandigarh &  
Post Graduate Govt. College, Sec-11, Chandigarh.**

**The pandemic that engulfs the world is proving to be a threat  
as if the very existence of humanity is at stake .**

**The two day international webinar is an attempt to chronicle  
the changes occurring across the globe within and about institutions .**

**The central focus of the 2 day international webinar is to map out  
the major trajectories of the ongoing socio-cultural processes and  
individual and plural narratives, revolving around Family ,Gender and Health .**

**FAMILY -The home is the new all embracing motif where the professional and  
personal boundaries seems to collapse .**

**Rest,Recreation,& Work exists as in a common continuum - "WORK FROM HOME" ,  
the change signifies 'The New Normal ' .**

**GENDER-** Family as a site of competing affirmations in role and status, is witnessing a new form of bonding as well as multiple scenarios and complex possibilities, which must be examined in its multi dimensionality.

**HEALTH -** Undoubtedly addressing Health concerns requires an unprecedented effort to be made by individual/family/civil society /nation-state .

The effectiveness of this effort will collectively decide at national and global level as to how to medically contest the pandemic as well as grow economically in future .

The international webinar revolves around the troika of

Family ,Gender & Health and aims to work towards

finding a global solution within local socio-cultural context so as to future proof the mankind against illness, suffering & death arising out of pandemic COVID-19.

Hoping for an intellectually stimulating engagement with you .
